Raman Bhandari

Operations, Inventory & Logistics Professional

Helsinki, Finland | +358 41 497 5371 | ramanbhandari7@outlook.com | ramanbhandari.com.np

PROFILE

Operations professional with 10+ years of experience in high-volume distribution centres: receiving, organising, dispatching and tracking goods, and keeping records accurate (99%+ inventory accuracy in Oracle JD Edwards ERP). I coordinate with colleagues, drivers and logistics partners, take ownership of daily routines, and solve problems calmly when plans change. Studying Business Management at Laurea University of Applied Sciences, with certifications in Supply Chain Logistics, Google Data Analytics, Python data analysis and AI. Fluent English, quick to learn new systems, safety-conscious and reliable. Open to warehouse, logistics, inventory and office operations roles in the Helsinki area.

KEY SKILLS

- **Operations and coordination:** daily receiving, put-away, picking, packing, labelling and dispatch; meeting daily targets
- **Logistics liaison:** working with drivers, logistics partners and warehouse teams to keep deliveries moving and reduce discrepancies
- **Inventory control:** 99%+ accuracy, cycle counting, FIFO/FEFO rotation, reconciling physical stock with system records
- **Systems, data and AI:** Oracle JD Edwards ERP, Microsoft Excel, accurate data entry, basic data analysis (Python, Google Data Analytics), Elements of AI; motivated to learn SAP
- **Quality and compliance:** checking shipments against records, preventing damage, following safety procedures, keeping work areas clean and organised
- **Hands-on support:** moving, organising and setting up items, pallet jack, loading and unloading trucks; ready to learn forklift operation

WORK EXPERIENCE

Data Entry & Inventory Clerk (Warehouse Operations), Al Baironi Trading & Distribution, Doha, Qatar — Jan 2024 – Sep 2025

- Coordinated daily receiving, put-away, picking, packing, labelling and shipping in a high-volume warehouse, meeting daily targets
- Maintained 99%+ inventory accuracy in Oracle JD Edwards ERP while processing high volumes of stock
- Checked incoming and outgoing shipments against system records to keep quality and accuracy high
- Ran regular cycle counts and reconciled physical stock against system records
- Loaded and unloaded delivery trucks, handling goods carefully to prevent damage; kept the work area clean, organised and safety compliant

Storekeeper / Inventory Specialist (Warehouse), Al Baker Group, Doha, Qatar — Sep 2015 – Sep 2023

- Managed daily inventory and stock control for a large distribution centre handling high volumes of parcels and goods
- Received, stored, picked and dispatched goods following FIFO/FEFO principles
- Coordinated with logistics teams and partners to keep stock levels right and reduce discrepancies
- Operated pallet jacks and other warehouse equipment, including heavy lifting and manual handling of deliveries

EDUCATION

Bachelor of Business Management (in progress), Laurea University of Applied Sciences, Espoo, Finland — Aug 2026 – Present
